CURRENT POSITION

Postdoctoral Researcher | *Department of Mathematics*
EPFL, Lausanne, Switzerland
Advisor: Sofia C. Olhede

Sep. 2026 – *now*

PAST POSITIONS

Assistant Researcher | *Department of Statistical Sciences*
University of Padova, Italy
Advisor: Mariangela Guidolin

May. 2026 – July 2026

Postdoctoral Researcher | *Department of Economics*
Università della Svizzera Italiana, Lugano, Switzerland
Advisor: Antonietta Mira

Oct. 2025 – Apr. 2026

EDUCATION

Ph.D. | *Statistical Sciences*
University of Padova, Italy
Advisor: Bruno Scarpa, Co-Advisor: Aaditya Ramdas

Oct. 2022 – Jan. 2026

M. Sc. | *Statistical Sciences*
Final mark: 110/110 with laude
University of Padova, Italy

Oct. 2020 – Sep. 2022

B. Sc. | *Statistics, Economics & Finance*
Final mark: 110/110 with laude
University of Padova, Italy

Oct. 2017 – Sep. 2020

High School Diploma | *Business Administration and Economics*
Final mark: 100/100
ITE P.F. Calvi

Sep. 2013 – Jun. 2017

VISITING PERIODS

Carnegie Mellon University | *Department of Statistics and Data Science*
Pittsburgh, PA, USA
Advisor: Aaditya Ramdas

Jan. 2024 – Dec. 2024

WORK EXPERIENCE

Academic Tutor
University of Padova, Italy
• Small lectures and study groups on *Calculus 1* (B.Sc. course)
• Small lectures and study groups on *Statistics* (M.Sc. course)

Oct. 2021 – May 2022

"Mille e una lode" Tutor
University of Padova, Italy
• Small lectures and study groups on *Calculus 1* (B.Sc. course)

Oct. 2020 – Jan. 2021

Curricular Internship
CentroMarca Banca, Italy
• Statistical analysis and reporting
• Marketing department assistant

Jun. 2019 – Oct. 2019

PUBLICATIONS

7. Gasparin M., Goeman J.J., Heller R., Solari A. (202+). Combining dependent p-values: Methods and properties from a practical perspective, *Annual Review of Statistics and Its Application*, Accepted
6. Gasparin M., Ramdas A. (2026). Conformal Online Model Aggregation. *Uncertainty in AI (UAI)*, Proceedings of the 42nd Conference on Uncertainty in Artificial Intelligence, PMLR 337:1663-1683, 2026. [\[link\]](#) [\[arXiv\]](#)
5. Gasparin M., Ramdas A. (2025). Improving the statistical efficiency of cross-conformal prediction, *Intl. Conf. on Machine Learning (ICML)*, Proceedings of the 42nd International Conference on Machine Learning, PMLR 267:18848-18867 [\[link\]](#) [\[arXiv\]](#)
4. Gasparin M., Wang R., Ramdas A. (2025), Combining exchangeable P-values, *Proc. Natl. Acad. Sci. (PNAS)*, 122 (11) e2410849122, <https://doi.org/10.1073/pnas.2410849122>. [\[link\]](#) [\[arXiv\]](#)
3. Gasparin M., Scarpa B., Stanghellini E. (2025). Omitting continuous covariates in binary regression models: implications for sensitivity and mediation analysis, *Statistica Neerlandica*, 79(1), e1236. [\[link\]](#) [\[arXiv\]](#)
2. Gasparin M. (2025), Cross-Conformal prediction and statistically efficient p-value combinations, *Scientific Meeting of the Italian Statistical Society*, 194-199.

PREPRINTS AND WORKING PAPERS

4. Gasparin M., Ramdas A. (202+). Merging uncertainty sets via majority vote. [\[arXiv\]](#)
3. Gasparin M., Aliverti E., Scarpa B. (202+). Asymmetric item-response theory models via unified skew-normals. (*Submitted*)
2. Gasparin M., Ravenda F., Montagnani D., Mira A. (202+). Uncertainty quantification for LLMs under prompt shift. (*Work in progress*)
1. Broggio A., Romeo Astigueta N.S., Bordin A., Crivellaro M.A., Gasparin M., Scarpa B., Moretto A. (202+). Monitoring Mid -Term Changes in Allergenic Airborne Pollen in Padua, Italy. (*Submitted*)

CONFERENCE PRESENTATIONS & SEMINARS

9. Conformal Online Model Aggregation, *UAI 2026*, Amsterdam, Netherlands, August 2026, (*poster session*).
8. On the combination of dependent p-values and applications to conformal prediction, *ABACO 26*, Padova, Italy, February 2026, (*talk*).
7. Omitting continuous covariates in binary regression models, *Skew 2026*, Padova, Italy, January 2026 (*poster session*).
6. Uncertainty quantification for black-box algorithms, *Outreach event "Lessi una tesi..."*, Padova, Italy, May 2025 (*talk*).
5. Combining exchangeable p-values, *E-readers joint group*, online Seminar, April 2025 (*talk*).
4. Combining exchangeable p-values, *Waterloo Student conference in Statistics, Actuarial Sciences and Finance*, Waterloo, Canada, October 2024 (*talk*).
3. Conformal online model aggregation, *AI-SDM (Artificial Intelligence for Societal Decision Making)*, Pittsburgh, USA, May 2024, (*poster session*).
2. Merging uncertainty sets via majority vote, *ASA PGH (American Statistical Association Pittsburgh)*, Pittsburgh, USA, April 2024 (*poster session*).
1. On the omission of continuous covariates in logistic regression, *ICSDS Conference*, Florence, Italy, December 2022 (*poster session*).

INVITED TALKS

10. Combining exchangeable p-values, *ISNPS (International Symposia on Nonparametric Statistics)*, Thessaloniki, Greece, June 2026.
9. Combining exchangeable p-values, *e-values reading group - University of Oxford*, online, June 2026.
8. Conformal Inference, *teaching session for the course "Data Analysis and Data Mining"*, Padova, Italy, April 2026.
7. Uncertainty quantification for mortality data, *Climbing Mortality Models II*, Misurina, Italy, August 2025.
6. Cross-conformal prediction and statistically efficient p-value combinations, *SIS 2025 - Statistics for innovation*, Genova, Italy, June 2025.
5. Combining exchangeable p-values, *High-Dimensional Statistical Inference Workshop*, Venice, Italy, May 2025.
4. Combining exchangeable p-values, *ISNPS (International Symposia on Nonparametric Statistics)*, Braga, Portugal, June 2024 (*talk*).
3. Merging uncertainty sets via majority vote, *ISSI (International Seminar on Selective Inference)*, online Seminar, April 2024. ([link](#))
2. Merging uncertainty sets via majority vote, *INRIA*, online Seminar, March 2024.
1. Evaluating the influence of environmental factors on UA diseases through Mediation Analysis for a binary outcome, *Prin Select Final Workshop*, Venice, Italy, July 2023.

DISCUSSANT

1. Discussant of the session "Advances in uncertainty quantification and sensitivity analysis", *SIS 2025 - Statistics for innovation*, Genova, Italy, June 2025.

TEACHING EXPERIENCE

Course title	Level	University	Type of activity*	Period (a.y.)	Duration
Regression Methods	MsC	EPFL	TA	2026/27	24h
Strumenti statistici per l'analisi di dati aziendali	MsC	University of Padova	T	2025/26	10h
Advanced topics in Time Series, Spatiotemporal Modeling, and Prediction with Uncertainty Quantification	PhD	USI	L	2025/26	8h
Advanced Statistics	MsC	USI	L	2025/26	4h
Analisi dei dati (Data Mining)	MsC	University of Padova	T	2024/25	15h

* L: Lecturer; TA: Teaching Assistant; T: Tutor

HONORS AND AWARDS

Research Award for Early-Career Researchers, Dept. of Statistical Sciences, University of Padova Jointly awarded a €1,000 research prize for the paper "Combining Exchangeable P-values" (a.y. 2025)	Summer 2026
PDT Partners Machine Learning Conference Grant Travel grant (\$3,000) from PDT Partners for attendance at ICML	Spring 2025
Best presentation award "Waterloo Student conference in Statistics, Actuarial Sciences and Finance" Special merit mention for the best presentation award	Fall 2024
Award for the best master's thesis in Methodological Statistics in memory of Prof. Oliviero Lessi Special merit mention for the best master's thesis in Methodological Statistics (<i>Italian Statistics Society - SIS</i>)	Fall 2023
Mille e una Lode award (A.Y. 2018/19) Recognition for 1000 best students in University of Padova	Fall 2019

SUMMER SCHOOLS

Summer School on “Replicability crisis in science?”

Sep. 2023

Selected participant in the summer school on the Replicability Crisis (Profs. G. Parmiggiani & B. Fitelson)

Stat Data Camp — Brixen

Sep. 2022

Selected participant in the Stat Data Camp, a weekly data analysis workshop organized by the University of Padova

PROFESSIONAL SERVICES

Referee

Biometrika, Journal of Multivariate Analysis, Journal of Statistical Planning and Inference, NeurIPS, Statistica Sinica, Statistical Methods and Applications

Positions in Boards and Committees

Member of the PhD Board in Statistical Sciences, University of Padova (Sep. 2023 - Sep. 2025)

Representation of PhD students

Organizer

- Explain Like I’m an Undergrad (Jan. 2025 - May 2025)

Series of weekly seminars for PhD students and researchers in the Dept. of Statistical Sciences at the University of Padova

- EYSM 2026, Vilnius, Lithuania

International Organising Committee - European Young Statistician Meeting 2026

Membership

SIS (Società Italiana di Statistica)

Outreach Activities

Event volunteer – Venetoneight 2021

SKILLS

Languages: Italian (native), English (fluent), Spanish (moderate)

Programming: R, Python, SAS

Document Creation: Microsoft Office, LaTeX, Markdown
